SOLDIERS GIVEN A BIG RECEPTION

Citizens of Rolla, Mo., Turn Out
Enmasse to Greet Battery B,
on Its Way to Border

CARD FROM A. H. BLACKLIDGE

Each is Given Postal Ready for
Mailing so They Can Write to
Folks Back Home

Mrs. John C. Blacklidge received a card this morning from her son, Allan H. Blacklidge, a member of Battery B. of Purdue University now enroute to the Mexican border. The card was mailed from Rolla, Missouri, where the citizens of the town turned out and gave the soldier boys a great reception. Each member of the battery was given a postal card, stamped and ready for mailing.

According to the card, the local boys are all well and in fine spirits and are enjoying the trip to the border despite the poor transportation facilities. The postal card received by Mrs. Blacklidge states that the battery is confident of ending up at Brownsville, Tex. The communication stated that all members would be elated if this were true as Brownsville is about 50 miles from the gulf and they figure that this should help the climate.

Mr. and Mrs. Blacklidge and Mrs. J. W. Gartin were in Indianapolis during the afternoon that the troops started entraining and were at Fort Harrison when the train carrying Battery B. left for the border. All of the Rushville boys are members of Battery B with the exception of William Hardin, Jr., who is a member of Company B, First Regiment. Hardin joined the infantry about two weeks ago.

The First Regiment is expected to leave for the border not later than Monday.

JESSE T. WINSHIP SUFFERS STROKE TODAY UNCONSCIOUS

Jesse T. Winship Suffers Stroke of
Apoplexy Some Time During
Night While Alone

IT IS THE SECOND ATTACK

Jesse T. Winship, a well known resident of this city, suffered a stroke of apoplexy this morning at his home, 324 West Ninth street. Mr. Winship was still unconscious at a late hour this afternoon and his condition is said to be critical. Mrs. Winship is visiting in Chicago. When Mr. Winship failed to appear this morning neighbors and relatives became suspicious and entered the house. This was at ten o'clock and he was found unconscious.

He appeared to be in his usual health last evening. This is the second stroke he has suffered, the first one occurring about one year ago. Little hope is held out for his recovery.

Congratulations To—

B. W. Riley, who is celebrating his eighty-fifth birthday today. Mr. Riley is quite active for one of his age and enjoys good health. For many years he was in the grocery business here.

The band consists of the town, who subscribed liberally to the fund and have guaranteed the concerts for the rest of the summer.

GIRL IS SEVERELY INJURED BY FALL

Virginia Lucas, Age 8, Has Badly
Wrenched Neck Due to Accident
When Hammock Broke

THROWS HER TO PORCH FLOOR

Virginia Lucas, 8, suffered a severe injury last night when the rope supporting a hammock broke, precipitating her to the floor of the porch. The accident occurred at the home of Mr. and Mrs. Frank Grossman, near Falmouth, where she was visiting. She was removed to the home of her parents, Mr. and Mrs. Harry Lucas, 721 North Oliver street. In falling the little girl hit the back part of her head and in some manner wrenched the muscles of her neck. This caused her great pain and today she could not turn her head so sore were the ligaments and muscles. The attending physician states that the injury will not be permanent, but that it would require several days before the neck would again be normal.

RUSH COUNTY IS SHORT NEAR \$9,000

Sends \$19,254.51 to State Treasurer
for School Purposes and Gets
\$10,815.42 Back

IS ALWAYS TO BE EXPECTED

Out of a total of \$19,254.51 sent to the state treasurer from this county for school purposes Rush county received in return \$10,815.42. The check for this amount was received by the county treasurer this morning.

In the school revenue apportionment this county always loses close to \$9,000 in the settlement and this year was no exception. The amount sent the state and the amount received in return varies but little each year. Most of the counties in this district lose in the apportionment. The settlement with the state was made the first of this week and record time was made in distributing the money to the various counties.

LEE LINK FINED

Lee Link of Glenwood was fined one dollar and costs in Squire Kratzer's court this morning. He paid the fine and costs amounting in all to \$12.75. Link created a disturbance last night in Glenwood and when his wife complained he was arrested by Marshall Brooks. As there is no jail in Glenwood Link was brought here for the night.

COUNTY LOSING \$2,000 A YEAR

Is Paying \$2,000 Annually as Vocational Tax and is Receiving
Nothing in Return

COUNTY AGENT, THE ANSWER

If One is Employed, County Receives
\$1,500 as Part Salary—T. A.
Coleman Explains Work

Rush county is paying approximately two thousand dollars a year as a state vocational tax and is getting nothing in return, whereas if the county had an agricultural agent, it would receive \$1,500 annually from the state fund to defray half the salary and current expenses of the county agent.

This information was imparted today by T. A. Coleman, formerly of this county, who has been spending the week here, with relatives. Mr. Coleman is in charge of the county agent work of the Purdue university extension department and is in position to know what is being accomplished in this line of endeavor.

All Rush county has to do to get a county agent is that enough farmers be sufficiently interested to subscribe \$500, which is to be put up as a bonus, and the county council appropriate \$1,500 annually to pay half the salary and current expenses of the county agent. The \$500 which the farmers put up as a guarantee is used to purchase permanent office equipment for the county agent.

Because Rush county has never taken any steps in this direction, there has always been an opinion that Rush county is not interested and does not want any county agent—that the farmers as a rule do not feel that they can be taught anything about farming.

Quite the contrary is true, according to Mr. Coleman, who said today that he has received many requests from Rush county farmers for information about how to acquire a county agent. It is a testimonial to the work of the county agent that most of the inquiries have come from farmers living in the northern and southern parts of the county who have come in contact with the accomplishments of the agricultural agents of Henry and Decatur counties.

The question of having a county agent in Rush county resolves itself into this; the county is paying a cent on each \$100 of taxable property as a state vocational tax and is not getting a cent in return. If Rush county had an agriculture agent, it would receive \$1,500 a year from this fund. In order to get that \$1,500, the county council would have to appropriate \$1,500 annually, which would be a tax of three-fourths of a cent on each one hundred dollars of taxable property. The city people, corporations, as well as the farmers, who receive the direct benefit, would have to pay according to the amount of taxable property. In other words, it is estimated that the county agent would cost the average Rush county farmer about thirty cents a year.

Of the ninety-two counties in the state, Mr. Coleman says, forty-five have or soon will have county agents and ten or twelve others are making plans to get them. The biggest problem confronting those in charge of this work is to get competent men to act as county agents. Out of forty-five counties, only three have tried the county agent and decided that they did not want one for the present.

In addition to all the other things Rush county farmers are missing, in

TWO RICHMOND OFFICERS SLAIN

BOOZE BLAMED FOR TROUBLE

Eli S. Carr, Murdered, After Being
Captured Escapes and is Finally
Brought Down

Richmond, Ind., July 8.—Two police officers, George M. Little and Elmer Stevenson, were shot and killed by Eli S. Carr, a truckman at the Pennsylvania freight station, North D street, shortly after midnight today after they had responded to a call sent in from the freight station following Carr's attempt to shoot E. B. Dowdy, night foreman of the freight office. Later Carr attempted to escape, after he had been turned over to Officer Charles Kuhlman by station employees who had seized him, but was brought down with a bullet in his left hip, fired by Kuhlman. Carr was taken to Reid hospital under police guard.

Officer Stephenson was the first one shot by Carr. He died within five minutes in the arms of Eden T. Woods, night watchman at the freight station.

Patrolman Little, after Stephenson had been shot, engaged in a revolver duel with Carr. After he had been mortally wounded with a bullet in the chest, Little gallantly closed with his whiskey-crazed antagonist. As he grappled with him, Little received a second bullet in the chest. In falling he pulled Carr down with him, and held him until he had been seized by truckmen and other freight house employees.

As soon as possible Little was hurried to Reid hospital but died as he arrived at the institution.

Within ten minutes after Little and Stephenson had been killed, Officer Kuhlman arrived at the station and took charge of Carr. After he had gotten from the freight shed to the sidewalk, Carr suddenly broke loose, dashed to the shed platform and bolted north, apparently hoping to secret himself in some box car. Kuhlman, after he had followed his quarry a short distance, fired at him, the bullet taking effect in Carr's left hip, crumpling him up on the platform. Later Carr was removed to the hospital. His wound is not serious, it was announced at 2 o'clock this morning.

Booze was responsible for the tragedy which claimed the lives of two of the most popular and efficient members of the police department.

About 7 o'clock last evening Carr who is single and has been living at the boarding house of Mrs. Ollie Uhly, 210 North Seventh street, reported for work at the freight station in an intoxicated condition. After working a short time, he was ordered away by Night Foreman Dowdy who told him he was in no condition to work. About midnight Carr, more intoxicated than ever, returned to the freight office, and asked Dowdy if it was his intention to "turn him in" that is, report him. Dowdy told him he intended to do so. Instantly Carr pulled a revolver and pointed it at Dowdy, who was in a chair. As Dowdy jumped Carr shot, the bullet lodging in the wall. Carr then left the room but remained in the train shed. Police headquarters was notified of the incident and Sergeant Staubach detailed Officers Little and Stephenson to arrest Carr.

As the two officers entered the train shed Carr pulled his revolver

AN OLD CHARGE RENEWED

George Newland Accused of Provoke
and Assault and Battery

Affidavits against George Newland charging provoke and assault and battery have been filed in Squire Kratzer's court. The charges were filed by William Cross. These are the same charges that were filed some time ago before Mayor Bebout but were withdrawn before the cases came up to trial. Newland asked for a change of judge from Squire Kratzer and Harley Frazier was appointed to hear the cases. Judge Frazier then set the cases for trial at ten o'clock on the morning of July 17.

THIRD UNIT WAS ENTRAINING TODAY

Signal Corps of Indianapolis and
Ambulance Corps of Frankfort
Will Leave for Border.

SECOND INFANTRY IS DELAYED

(By United Press.)

Fort Benjamin Harrison, Indianapolis, Ind., July 8.—The third unit of the Indiana National Guard, consisting of the signal corps of Indianapolis and ambulance company No. 1 of Frankfort began entraining at 7 o'clock this morning and will leave late today for the Mexican border.

The destination of the unit which is designated as "special troops," is believed to be either Brownsville, Texas, or the neighboring town of Mercedes. The troops will travel on one train of fifteen cars.

The entrainment of the Second Infantry, scheduled for tomorrow, is uncertain, guard officers said this afternoon. The leaving of the regiment may be held up by failure of mustering in of Company E. of Kokomo and Company M. of Princeton. Lieutenant-Colonel Toffey has wired the war department for instructions in the case of the two companies, but no answer had yet been received this afternoon.

Unofficial figures this afternoon showed that the Second Regiment will lose more than two hundred men through failure to pass the physical examination.

ALLIED OFFENSIVE BEGINS 2ND WEEK

Although Hindered by Sea of Mud
British and French Troops
Both Claim Slight Gains

FORMER CAPTURE 400 MEN

(By United Press.)

London, July 8.—The great offensive of the allied armies entered its second week today with the allies everywhere attacking and maintaining their early gains at practically every point despite heavy enemy counter attacks.

A heavy downpour of rain throughout yesterday afternoon converted the battleground on both sides of the Somme into a great sea of mud last night and seriously handicapped operations. Despite this handicap the French war office today claimed slight further progress south of the Somme with the taking of 400 prisoners.

CARRANZA AND VILLA MEN MEET

Reported This Afternoon to be Engaged in a Desperate Battle

Southeast of Jiminez

OFFICIAL NEWS RECEIVED

Declare Villa Himself is at Head of
Force of 3,000 Men Which is
Marching on Parral

(By United Press.)

El Paso, Texas, July 8.—A desperate engagement is raging southeast of Jiminez between two thousand Carranzistas and eight hundred Villistas, led by General Contreras, according to official advices today, to General Gonzales of Juarez, in a delayed message from Chihuahua City.

Villistas are rushing toward the Big Bend country to raid American towns, according to information received here earlier in the day.

Sweeping across the Chihuahua wastes from Falmoir, toward La Mula Pass, a band of Villistas of unknown strength is reported to be moving towards Ojinaga and the small American settlements in the Big Bend border country.

Official advices reported Francisco Villa himself at the head of 3,000 men advancing to attack Parral. Villa, the report stated, evacuated Jiminez, which he captured two days ago and cut communication lines northward through Parral.

Villa was first reported today to be marching from Jiminez to Chihuahua City while contradictory advices from Carranzista sources declare that de facto government troops have reoccupied Jiminez and are driving the bandits southward. Carranzista officials would not admit at first that Villa himself is leading the rebels.

The Villistas have issued new Mexican currency. Millions of the bandit leader's old currency is held throughout Chihuahua and he is reported to have obtained much support by promising to redeem the now practically worthless paper.

E. M. TALMERTON DIES

Orange Township Farmer Expires at

HAS CARBURETOR TO USE COAL OIL

Cleveland Man Believes he Has Invention That Will Soon Reduce Cost of Motoring.

GETS 12 MILES ON GALLON

(By United Press.)

Cleveland, July 8.—About a month from today George A. Eynon, a local machinist, will begin to market a carburetor that will, it is claimed, gladden the motorists heart by running his car with coal oil instead of priceless gasoline.

Eynon accidentally discovered the principle by which he devised his carburetor. One day he spilled some oil on a rag and carelessly brought a hot iron near. Vapor was given off. The problem was solved.

Eynon accidentally discovered the thin wire around a few shreds of asbestos and sent an electrical current through the wire. The asbestos acted as a wick and the heated oil vaporized enough oil to start the engine. As soon as the engine is started, the electricity is turned off and vaporization is maintained by the burning of a little oil in a combustion chamber.

A test proved that a car could be driven 63 miles on four and a half gallons of coaloil. Heavy cars fitted with the carburetor have made 11 to 12 miles on a gallon of kerosene.

THINK BUREAU BEARS WATCHING

Indianapolis Republicans Wondering Whether Employment Agency Is Taking Negroes for a Purpose

DOUBTFUL ABOUT MOTIVES

Three Hundred are Carried to Akron

O. Carfare Paid, Which Arouses Some Suspicion

Indianapolis, Ind., July 8.—Republicans are keeping an eye on certain things that are taking place in this state in connection with the Federal free employment bureau, which is now in the hands of the Democratic administration. There is a suspicion among many of them that some of the recent doings may not be entirely free from a political tinge, and this has caused some of the Republicans to decide to watch developments.

A few days ago there appeared in certain newspapers an advertisement for three hundred negroes to take employment with a manufacturing concern at Akron, Ohio. The advertisement said the negroes would be transported to Akron without expense, would be given steady work at good wages and that the job would last at least a year.

Negroes were requested to present themselves at the Federal free employment. The result was that something like two hundred negroes appeared at the bureau and accepted employment. It is now said that others are to try to hire a large number of men in Indiana for work in other states.

It is a well known fact that practically all of the negroes are Republicans, and there is a lingering suspicion that there may be a Democratic political scheme in getting several hundred of them to leave Indiana before the November election, and thus cause them to lose their votes.

Nobody seems to know as a certainty that this is the plan, but it is something that will bear watching, in the estimation of some of the Republicans who look out for the party's welfare.

If some such plan could be worked and thus far take a few thousand Republican negroes and other workingmen out of the state and keep them out of the state until after election, it would profit the Democrats to just that extent.

There is not a dollar of Wilson money in sight on the betting boards of Indianapolis. Before the Chicago Convention a few small offers on Wilson at even money were posted, but it was snapped up in quick order when Col. Roosevelt declined the nomination for the presidency on a third party ticket and announced that he would support Hughes. There is an abundance of Hughes money, but to date not a single proposition posted on any of the Indianapolis boards has been taken.

Progressive county tickets that were named in the March primary are disintegrating at a rapid rate. Invariably the men honored with these nominations, in giving them up, announce their intention of supporting the Republican ticket. In withdrawing as a candidate for county treasurer on the Wabash county Progressive ticket F. J. Bechtold, of Wabash, said: "Under the present condition of national affairs I think there should not be a third party in the field and I am going to support the Republican ticket from President down."

It is reported from Winona that W. J. Bryan delivered a speech there on the Fourth of July to fewer than one hundred people. The time was when the announcement of a speech by Bryan, now as strong a Democrat as he ever was, in Indiana drew people by the thousands, but apparently the same kind of announcement now fails to bring them out.

Problems After the War.

"No living man," declares the Houston Post, (Democratic) "can at this time anticipate the far-reaching adjustments of the world's international relations. No living man can contemplate even the results that are just ahead without realizing what a solemn and tremendous responsibility is soon to fall upon the shoulders of those who must direct the future course of the government."

Yet millions of living men are thinking of that time and of its responsibilities, and they are planning to shape their immediate political action so that the "solemn and tremendous responsibility" of which the Houston Post speaks may fall upon shoulders which are capable to bear it.

"The small domestic problems around which our customary partisan contests have raged are as nothing compared with the world aspects of the problems just ahead. With all this we are in cordial agreement."

Yet it will not do to lose sight entirely of our domestic problems—for upon the manner in which we deal with them will depend—very largely, as the President would say—our success in dealing with the greater world problems which will be thrust upon us. For example, if we are to leave ourselves without tariff protection after the European war ceases, we shall be in no position to cope with the commercial problems which will come upon us with the release of Europe's fighting millions from the trenches and with their return to productive pursuits.

Strong and capable constructive statesmanship will be the crying need of this country after Europe's war is over; and the election next November will show whether we are to have it or not. If a Republican President and a Republican Congress are chosen, we may look with confidence for a proper solution of the problems which will present themselves. If the present vacillating administration is to be continued in office to control legislation, the future will be dark with misapprehensions. The record of the two parties will show which is the more deserving to take up the "solemn and tremendous responsibility." "There can be no two opinions about it. It is the Republican party which has the character and the capacity to render the needed service to the nation—and the nation should not hesitate in making the selection."

Manchester, (N. H.) Union—President Wilson's note to Carranza constitutes a vigorous arraignment of the de facto government of Mexico—and, albeit unconsciously, perhaps, scarcely less impressive arraignment of the Wilson administration for having so long permitted the disgraceful conditions to continue.

Yonkers (N. Y.) Statesman—It has fallen to Charles E. Hughes to be the man to make the one-term plank of the Baltimore platform mean something.

Many warnings have been given about the aftermath of "war order" prosperity, but the average "joy rider" does not worry about bridges or railroad crossings until he is on them.

but that Steffens and Gompers got to him and changed his mind. It will be recalled that Gompers had word of the release of United States prisoners captured at Carrizal before President Wilson did.

life are always to be accomplished through trying just once? Not many—and the "just once" folks are usually failures as classified advertisers.

"Every time we see a sport shirt the more we think there should be universal military service," observes the Lake County Times. But the Times should worry. Most of the soldier boys are wearing wrist watches because Uncle Sam does not provide watch pockets in their trousers.

Sam Gompers and Lincoln Steffens had such good luck with Carranza that it might be a good idea for President Wilson to send them after Villa. It is stated that Carranza had in mind a defiant reply to Wilson "grave consequences" note.

HUNDRED LEADING HOOSIERS

Oliver Hampton Smith.

Born on an island in the Delaware river and educated in the district schools, Oliver Hampton Smith came to Indiana at the age of 23. He lived for a time at Rising Sun but later moved to Connersville.

Smith practiced law in eastern Indiana with great success. He was elected to two terms in Congress and in 1836 was elected United States senator. Six years later he was defeated for senator by one vote.

The Bellefontaine railroad was the conception of Smith and to him was due its completion. He devoted his last years to literature. He died in 1859.

Current Comments

Hoch Der Hyphen!

(Washington Herald)

Descendants of men who were shooting at the flag in the sixties now are talking much about Americans of German extraction and questioning their loyalty to the government of the United States. Most of these critics are Democratic politicians who want to see Wilson re-elected. The others are anglo-manics. When the supreme test of loyalty came, the Germans in the United States stood by the flag, and it was the proud boast of many thousands of them that they "fought mit Sigel," the famous German-American general of the Union forces in the civil war.

Hughes Is Human.

(Columbus Republican)

A Democratic editor recently made a perfectly good pun when he wrote "Just see Hughes." He would have had his readers believe that Mr. Hughes is a human icicle and that the whiskers adorning his chin are frozen there. But the more the Republican candidate for the presidency speaks, the more human he becomes.

In an informal talk to the villagers at Easthampton, N. Y., Mr. Hughes said: "I have been long on silence and short on talk. It is an odd experience that I am now going through, picking up the threads of old relations. I think I have lived at least five years in the last three weeks."

This is typical of the man. When he was a member of the Supreme Court of the United States he felt the dignity of his position. He realized that he was not expected to speak in public or to discuss public questions. He was an officer of the highest court of the land and it was his business to weigh the law and the evidence when important litigation came to that court of last resort. But now he has thrown off that restraint and becomes just plain Hughes the human.

The dream Mr. Hughes has of the future is a dream the people of this country are going to help him make a reality. Here is the future as he views it:

"My dreams of America is America represented in public office by its

best men, men working entirely for the good of the republic and according to the laws and ordinances established by the people for the government of their conduct, and not for their personal or political desires and ambitions; America working her institutions as they were intended to be worked, with men whose sole object shall be to secure the end for which their offices were designed.

"And if one will throw his personal fortune to the winds, if he will perform in each place, high or low, the manifest obligations of that place, we will soon have those victories of democracy which will make July Fourth in its coming years a far finer and nobler day than it has ever been in the fortunate years of the past."

REPUBLICANS ACTIVE ALL OVER THE STATE

The period for which Republicans of Indiana have been preparing ever since election in 1914 is at hand. It will be recalled that more Republican meetings were held in Indiana during 1915 than ever before during an "off year." They were getting ready for the present campaign. As a result of that preliminary work the party enters the present contest full of enthusiasm, absolutely confident of an overwhelming victory and hoping that the Democrats will put up a real fight. The disposition to organize tightly is evident everywhere; no one intends to take anything for granted. The ultimate aim of all Republicans seems to be to roll up a plurality in November of a size that will demoralize the Democratic opposition for years to come.

That's why so many meetings are to be held throughout the State during the hot days of July and August.

On July 18 the Republican editors of the Fourth district will hold a meeting at Madison, the home of Manley D. Wilson, Republican nominee for Congress. Bert Morgan, district chairman, has issued a call for all Republican county chairmen and secretaries of the district to meet with the editors for the purpose of discussing plans for the fight in that district.

On July 19 the Republicans of Elwood will hold a meeting. Capt. Harry S. New and James E. Watson Republican nominees for United States senator, will be present.

On July 20 the Republican committeemen of Lake county together with their army of helpers will hold a meeting at Crown Point.

Eleventh district Republicans will hold a ratification meeting at Peru on Saturday July 22 with an afternoon and a night meeting. Efforts are being made to secure Henry D. Estabrook of New York to make the principal speech.

The Republican clubs of Vigo County will give their second annual bean dinner at the Fair Grounds, Terre Haute on August 4. Last year these clubs entertained 6,000 people when the demonstration was held at a park five miles outside the city of Terre Haute. This year they are planning to care for more than double that number. However, there is a possibility that they may be to feed the crowd something else besides beans as it is said it would be impossible at this time, to secure in all Indiana enough navy beans to feed such a crowd. The army has gobbled up the available bean supply during the past month.

A rally of Huntington county Republicans will be held at the Fair Grounds at Huntington on August 17.

James E. Watson will be the speaker at the Merom Chautauqua on August 26—Republican day. A crowd of 10,000 people is expected.

The Republicans of the First district are planning to hold a big rally and barbecue at Evansville some time during August. The Young Republican Club, of which A. C. Stone is president, will have charge of the demonstration.

STUDY the Price-List publicly printed below.
Compare with the List-Prices of other Tires made in *LESSER* Volume.
Observe that competing Prices are *higher* in almost the exact proportion that *VOLUME* of production is *smaller*.
This, when *Quality* approaches the *Goodrich* Standard.
Cut our 1915 Tire Output (of 3,000,000 Auto and Truck Tires) to *One-third*, and it would *still* far exceed the Average of all Competing Makes or Brands.
But, that huge reduction in *Volume* MIGHT result in every Tire we made *costing you One-third MORE* than present prices.
They would not,—and *could not*,—be *BETTER* Tires, at this necessarily higher-cost to Us, and *higher-price* to You.
Because,—Goodrich Tires are *not* made “up to a price,”—nor “down to a price.”

WE, first of all, make the *BEST* Fabric Tires that our 47-year Experience in Rubber-Working,—our huge Purchasing-Power, and the most Advanced Equipment, renders possible.
Then we let *Cost* fall where it will.
To that *Cost* we add a moderate, and fair, Profit for Ourselves and for our Dealers.
Then we let *VOLUME* rise,—as it will.
The *more* Tires we *Make*, the *LESS* each Tire *COSTS* us to produce,—and the *less* it costs *YOU* to buy them.
The *more* Tires we *Sell*, the *less* profit, *per Tire*, WE NEED, for dividends.
The *more* Tires we make, the *better* we *KNOW* HOW to make them,—the *more* we have at *Stake* on *Quality*,—and Satisfaction to Consumers.
And,—because of all this,—
—The *BEST* Fabric Tires that Skill,—Experience,—Good-Faith, and *Maximum* Volume, can build,—are now available to *YOU* at the *VERY MODERATE* Fair-List Prices here quoted.
Why pay more for *ANY* Fabric Tire?

TWO RICHMOND OFFICERS SLAIN

Continued from Page 1.

again and opened fire. The first shot brought down Stephenson with a bullet in the chest. As he fell he called to Night Watchman Woods. When Woods raised the stricken officer's head from the floor he gasped and died. In the meantime Little and Carr were engaged in a short range gun fight. Before Little, who was the crack shot of the department and one of the best revolver marksmen in the state, could draw his weapon Carr had staggered him with a bullet in the chest. Game to the last Little, after receiving his death wound staggered toward Carr and grappled with him, receiving a second bullet in the chest before he could seize the murderer. His final effort was to pull Carr down to the platform. Just before Little lost consciousness several freight house employees seized Carr, holding him until the arrival of Officer Kuhlman.

Where the battle between the two police officers and the desperado occurred the platform flooring is stained with the life blood of the murdered men.

Very little is known of Carr. He has resided in the city for some time it was stated at the Pennsylvania freight station, where he worked most of the time and had a fairly good record. The murderer has never been in any trouble while a resident of Richmond and is not known at police headquarters. No information concerning him was obtainable at his boarding house early this morning.

Carr was removed from Reid hospital to the county jail about two o'clock this morning in custody of Officers Wenger, Bundy and Yingling. He was shot through the fleshy part of both hips and is not seriously hurt. He wanted to be carried up the stairs at the jail but was required to walk. His yells aroused nearly all the prisoners.

Asked why he shot the police officers and attempted to kill the night foreman at the freight station he replied curtly that he was angry because the foreman was “going to turn him in.”

At the hospital it was discovered that Carr had a deep cut in his head, which was received, it was learned later, from Officer Stephenson's mace. Stephenson struck Carr just after Carr had shot him.

PREDICTS DECENT WEATHER IN JULY

For First Time in Many Moons Prof. Hicks Runs Light on Rain and Heavy on Sunshine.

TO WILL BE SOME COOL DAYS

For the first time in many moons, Prof. Hicks has predicted some decent weather for July. If he is as near right as he was about June, some cool days and sunshine may be expected.

He says a reactionary storm period was to open on the 7th and last until the 12th. About the 9th, he continues, the weather will grow very warm and there will be local downpours that will cause local floods. Following this the weather will turn phenomenally cool and fair.

From the 14th to the 16th the weather will grow exceedingly warm and there will be general storm conditions, followed by storms of rain and wind. These storms will end rapidly and will be attended by hail.

From this time on until the close of the month will be minimum rainfall, and light and scattered rains only are expected. On the 29th a maximum heat wave is scheduled that begins on the 25th.

Two eclipses are scheduled this month. The annual eclipse of the sun, on the 29th, which is not visible to this country, and the eclipse of the moon on the 14th, which will be visible in part.

HOUSE-GUESTS RETURN

The house-guests of Mr. and Mrs. Theodore Reed returned to their homes this morning, Mrs. Cole going to Wisconsin, Mrs. Hunt and Mrs. Hadley returning to their homes in Anderson.

ATTENDED CONVENTION

Miss Anne Hanlan of Hillsboro, Ohio, who has been attending the Delta Zeta convention in Lincoln, Neb., stopped off last evening for a short visit with Miss Helen Seudder before returning to her home. Miss Hanlan was a student in Miami university last year.

ALL DAY PARTY

Mrs. Sarah Guffin entertained with an all day affair yesterday when a delicious dinner and supper were served. The guests were Mrs. Luinda Guffin of Chicago, Mrs. Ed Wilson of Indianapolis, Mrs. William Carney, Mrs. Theodore Friend, Mrs. Susan Tingley, and Miss Bertha Hungerford. A social good time was enjoyed throughout the day.

GUESTS AT DINNER

Mr. and Mrs. T. O. Havens entertained the following relatives for dinner Friday: Mr. and Mrs. George Havens and Miss Mary Scanlon of Rushville; Mrs. Chester Tuller, of Detroit; Mrs. Isaline Conaway and daughter Lea, of Connersville, and Mr. and Mrs. John H. Batterton and daughter, Miss Helen.—Greensburg Times.

ALL DAY PICNIC

Plans are being made by the members of Psi Iota Xi for the all day picnic they are to have Thursday as the guests of Miss Lucile Gray at the home of Mr. and Mrs. Morton Gray northeast of the city. The girls are to go in the morning and spend all day on the attractive country place. The dinner is to be served by the members of the first division.

IMPORTANT MEETING

An important meeting of the visiting nurse association will be held at the home of Mrs. A. G. Reeves at her home at 125 East Sixth street on Monday evening at 7:30 o'clock. The committee appointed to frame the constitution and by-laws is ready to report and for this reason a full attendance is desired.

VISIT CONNERSVILLE

The members of the Young Ladies Mission Circle of the Christian church are invited to Connersville Monday evening to be the guests of Mrs. Edward Jeffries, formerly Miss Arleigh Offutt of this city. They are planning to leave on the 6:07 traction car. The local members will give the program and conduct a regular meeting there.

What The Women's Clubs Are Doing

As a part of the Centennial at Connersville, the Clio Club of that city donated a public fountain.

Between August 15th and September 1st, the voters of this county and every other county in the state will be swamped with literature from the Franchise League. Personal campaigns are to be made also in the interest of this vigorous campaign is to influence voters to put men in office who favor woman suffrage. The woman's franchise leagues over the state, of which there are quite a few, will take an active part in the movement.

At the last meeting of the Nature Research Club of Newcastle, a program was followed by a tramp when flowers and plants were classified.

A flourishing union meeting of several W. C. T. U. associations was held last Sunday at Mont Lawn. "The Responsibility of Our Government for Rum Traffic in Foreign Lands" was the subject of a forceful paper. Mrs. Outland of Knightstown was the one out of the seven contestants winning the gold medal in the speaking contest. By means of these contests, public sentiment for temperance work is increased.

A joint convention of the Woman's Franchise League of Indiana and the Equal Suffrage association of Indianapolis is being arranged for early in the fall. An effort will be made to amalgamate the two societies, which Travel in Indiana" was ably discussed. American Woman's Suffrage association.

Miss Vida Newsom of Columbus is chairman of the pageant committee there, and is actively engaged in working out plans for the pageant.

Next year, the Woman's Club of Elwood will study "Women in Poetry, Play and Story", and interesting numbers have been planned for each of the meetings.

At the last meeting of the Athenaeum Club of Evansville, the very timely subject of "Transportation and are both affiliated with the National sed in a paper by one of the members.

AT THE WYATT HOME

Mr. and Mrs. George C. Wyatt and daughter, Wanda, are giving a pretty little dinner party this evening at their home in North Main street. The affair is in honor of Miss Josephine McNeil of Winchester, Ky., who is visiting here, and of the Rev. and Mrs. C. M. Yocum, who leave Monday for Pennsylvania where they will visit for several weeks while the Rev. Yocum is regaining strength after an operation. Other guests will be Miss Alma Green Mr. and Mrs. Warder Wyatt and children.

COUNTRY CLUB

Fifty members of the Country Club and guests gathered at the pretty country home of Mr. and Mrs. Wilbur Warner south of the city Thursday evening and had one of their delightful club meetings. The affair was purely social, with games music and dancing throughout the entire party. Dainty refreshments, too, were served during the course of the evening. Guests from Milroy and the vicinity and Mr. and Mrs. Henry Hurst and Mr. and Mrs. Charles Goble of Shelbyville were there. It was decided to have the regular club meetings on the first Thursday in each month during the summer months, after which the regular weekly meetings will be resumed.

FOR MISS COHEE

The 21st birthday of Miss Marie Cohee was celebrated in an ideal way this afternoon when in her honor a surprise was given by her mother Mrs. James Cohee at their home

MISS JOSEPHINE MCNEIL

Miss McNeil of Winchester, Ky., who has been the guest of Miss Beatrice Reeves for the past few weeks, has been one of the seasons most attractive visitors. She is an accomplished vocalist, pianist, and is a student in the college at Winchester. Her visit is a particularly interesting one inasmuch as her parents formerly lived here, when the Rev. Mr. McNeil was pastor of the Christian church.

LESS MEAT MORE FRUIT.

The summer diet should consist chiefly of fruits, berries, fresh vegetables, salads, fish, eggs and occasionally meat. You will be surprised to find how much nourishment can be taken without eating a single mouthful of meat. The system will not suffer in the summer from a diet made up largely on the vegetarian basis. Meat heats the body and adds to its discomfort. For this reason very little of it should be eaten during the warm days. On the other hand, a light fish cooked several hours before the meal and then served cold with rich mayonnaise dressing will provide just as much nutriment as the meat in a more agreeable manner.

Deviled eggs are delicious on a hot summer day; so is egg salad, served either with a mayonnaise or French dressing. Fruit and vegetable salads are always welcome when the days are warm, and a slice of cold meat will be relished occasionally. When meat is served, however, it should be cut very thin and should be eaten sparingly, accompanied by fresh vegetables and fruit.

SUMMER DESERTS FROM FRESH FRUITS

The following recipes, particularly appetizing because they include some of the summers most tempting fresh fruits, are used and recommended by some of Rushville's best cooks.

CHERRY ROLL

Make a rich pie crust, roll out and spread with butter; cover thickly with cherries; sweeten and roll up. Bake in pan. Sauce—Juice of cherries with a little water, sugar, butter and flour. Pour in pans and bake 45 minutes.

PINEAPPLE PUDDING

Cut 1 large pineapple into small bits, and strew with sugar; let stand three hours; stir into a quart of boiling milk, the yolks of 6 well-beaten eggs, 1 cup of sugar, 1 teaspoon of salt and 6 tablespoons of corn starch or flour well moistened with milk; let thicken well, and then when cool pour over the fruit. Beat the white of the eggs with 3 tablespoons of sugar; spread over the top and brown lightly.

RAINY DAY SETS OF OILSKIN COAT AND HAT REAL DUCKY

BY MARGARET MASON
(Written for United Press.)

Oh she is a rain dear
In oilskin chapeau
And slick coat of oilskin

From neck to her toe.

New York, July 8—Ducks aren't the only creatures that love to take a promenade on rainy days. All the dear feminine creatures of the human race are just crazy about summer showers now that the swaggar new rainy day sets of oilskin and hat are for sale. No wonder, for they are awfully ducky too.

Each sweetheart, wife and mother finds she is a little rain dear in these slick new outfits, but alas, every husband and father finds the rain a little dear for him also.

He disagrees with the soothsayers who advise you to put a little away for a rainy day. Father finds it wiser to put away a lot against the coming of this 1916 rainy season.

These new transparent raincoats of brilliant hued oil-silk that looks like isinglass we had with us in limited quantities last season, but this summer they have burst forth in profusion and variety and are topped off with the most perky of little slouch hats to match.

These hats come in two models, one fashioned solely of the oilskin with a stitched brim and a fold and pump bow of the same around the soft crown. The other is a little soft shaped affair of the oilskin lined throughout with the same shade of taffeta that pulls down snug on the head and allows the floppy brim to turn up or down or every which way to suit your face or fancy. A narrow

band of the taffeta passing through oilskin straps ties in an adjustable and fetching bow on the left side and thus regulates the head-size.

These desirable rainday outfits that are as serviceable as they are charming come in all decorative colorings of vivid green, Mediterranean blue, amber, cerise, purple and white as well as sober black and grey—both pearl and Oxford.

When you once glimpse the new umbrellas you'll spend all your time praying for rain. They are chunky and stubby and adorable and also dear.

They are called sun umbrellas and can be carried equally well in rain or shine but they really are more rainy looking.

They come in black, purple, green, red and blue and all have stocky little clubby handles with either a loop of braided leather like a cowhide whip to slip over your wrist or else they have stunning white ivory rings for the same purpose.

These with the white bracelet effects have their little blunt stiff ferules tipped with the white and also the ends of their ribs.

Others not quite so stubby but most attractive have handles of amber and there are also some with handles of white capped in green or blue and some with handles of black and white stripes.

Truly the rain is a blessing to bring out not only nature's flowers but all the fair human Roses, Pansies, Myrtles, Daisies, and Irys so smartly hatted, coated and umbrellaed.

Household Hints

The most efficient method of removing that oily deposit which forms on the sides of the porcelain bathtub and bowl is to use kerosene. Take some soft paper, moisten with kerosene and rub over the soiled part. This will cut the grease easily and the extra kerosene can be wiped up with more paper, which, with the first, should be burned, to avoid danger. The fixtures may then be washed with plenty of soap and hot water and they are clean. This method requires very little rubbing and is not injurious to the finish.

Avoid the use of soda or scouring powders. These will in time injure the finish of the enamel.

To remove brown stains caused by standing or dripping water use a little oxalic acid and wash out with plenty of clear water. This is very effective.—Nellie M. Killgore, Colorado Agriculture College, Fort Collins, Colorado.

Now that good lace is so extensively used, it is well to know that it may be cleaned by brushing with alcohol or gasoline. Metal lace may be cleaned by boiling in salt and water—Four tablespoons of salt to one quart of water.

Instead of folding tablecloths after they are washed, roll them, folded once or twice lengthwise on mailing tubes of cardboard. This makes a smoother cloth, with fewer creases, which is, of course, to be desired.

To remove tea and coffee stains, stretch the stained place over a bowl and pour boiling water through the stain.

Soak new brooms in strong, hot salt water before using. This toughens and makes the broom last longer.

To remove mildew rub over marks with the juice of a raw tomato, sprinkle with salt and lay in the sun.

A little vaseline rubbed on to a carving set when put away will prevent rust or discoloration and is easily wiped off when wanted for use.

My Son

By ADA TYRRELL

Here is his little cambrie frock
That I laid by in lavender so sweet
And here his tiny shoe and sock
I made with loving care for his dear feet.

I fold the frock across my breast.
And in imagination, ah my sweet,
Once more I hush my babe to rest.
And once again I warm those little feet.

Where do those strong young feet
now stand
In flooded trench, half numb to cold or pain,
Or marching through the desert sand
To some dread place that they may never gain.

God guide him and his men today,
Tho death may lurk in any tree or hill,
His brave young spirit is their stay,
Trusting in that they'll follow where he will.

They love him for his tender heart
When poverty or sorrow asks his aid,
But he must see each do his part—
Of cowardice alone he is afraid.

I ask no honors on the field.
That other men have won as brave as he—
I only pray that God may shield
My son, and bring him safely back to me! —Literary Digest.

HER DEATH NEAR

So Everyone Thought, But Is Now
Well And Stronger Than Ever.

Newton, Mo.—"I can certainly speak a good word for Cardui, the woman's tonic," says Mrs. Jay Rhodes, of this town. "I suffered for 12 years with my right side, and the last three years, I would have a bad spell with it about every three months. I would get so bad off, every one would think I could not live."

The first of July, I began taking Cardui, the woman's tonic, and I haven't had a bad spell since soon after I began taking it.

Before taking Cardui, I was so irregular, and at times, I could hardly stand on my feet. Now, I can clean house, and do any kind of work without its hurting me in the least.

Cardui will surely do for other women, what it did for me. I am telling all my neighbors about it."

Cardui is a mild and effective tonic for women, that has been found, by actual use, during more than 50 years, to relieve the ailments to which all women are peculiarly liable.

Card-u-i has helped thousands. Why not you? Try it.

Some Birds Worth Knowing

(By Dave Alter.)

The Woodpeckers.

The United States department of agriculture is trying to educate our people to the fact that birds are our friends and helpers and that they are worth protecting. Believing that the woodpecker should be protected, this article is written in the hopes that it may save the lives of some of them.

Kinds of Woodpeckers.

There are three hundred and fifty kinds of woodpeckers found in the world, twenty-five kinds in North America and six kinds in Rush county, namely—Downy, Hairy, Red Head, Yellow Bellied, Sapsucker, Guinea and Golden Winged or Yellow Hammer. They are named above in the order of their size, beginning with the smallest. Each of these woodpeckers are very beautiful, but as they are so common here we do not spend much time admiring their beauty.

Some of these birds are permanent residents and some are migrants, the Red Head being more likely to migrate than the others. It seems that the food supply determines whether or not they shall migrate. When the Red Heads do migrate they always come north in the daytime and go south at night, and the peculiar thing is that they always go at one certain time. It is always on the night of September 13 or 14. As many times as I have driven along the road between four and five o'clock on these dates, I have seen many Red Heads on the fence posts and telephone poles. The next morning none would be in sight. I do not know why the birds leave the timber and go to the fences the evening before going south, but I know such is the case.

Food of Woodpeckers.

It is the food habits of the woodpeckers that makes them valuable to the farmers of Rush county. Most people that plant fruit trees in Rush county, buy the trees, plant them in a more or less careless manner, go about their business and in a few years go back to the trees to gather their fruit, having given them no attention in the meantime. Who has kept your trees free from insects? The birds. They have not done this for our benefit but for their own living. About 70 per cent of the food of woodpeckers, consists of animal matter. This is made up of wood-eating worms, insects, spiders, caterpillars and other kinds of plant destroyers. The Downy begins at the

base of a tree and hunts over every square inch of the bark for his food; the Hairy Woodpecker is found from ten feet above the ground to the top of the tree; the Red Head near the top and the other kinds, except the Yellow Hammer, which is nearly always on the ground, may be found anywhere.

While 70 per cent of the food is animal, part of it is vegetable. This is mostly wild fruit that is not used by man, but some is cultivated fruit, especially the cherry. The Red Head eats more cherries than all the other kinds put together. Here we want to defend the Red Head and say that he is worth much more than the cherries are worth. We have all seen him taking cherries so some say he should be shot. It is a well known fact that he likes worms better than he does cherries. Some who have watched him carefully say that he always takes a cherry that has a worm in it, not for the cherry, but for the worm it contains. Who begrudges the Red Head a few wormy cherries?

Then, besides, he has cared for your tree from the time you planted it until it bore fruit. Remember, too, that all the time cherries are ripe the young birds are nearly ready to leave the nest. If the parent birds are killed the young must starve.

The Red Head lays four to seven creamy-white eggs. Each pair of birds will raise on an average four birds. As a bird will seldom care for its young if its mate is dead, the killing of one Red Head means the death of at least four more of our friends.

We passed one day a farm yard in which a cherry tree, laden with ripe fruit, stood. Under this tree were eight dead Red Heads. Supposing these eight birds were four pairs and each pair had a nest containing four young birds. Then sixteen young birds were killed, making a total of twenty-four birds whose lives were destroyed, which were a total loss as insect destroyers. It was not fair. Now while a few cherries may be eaten at this season of the year, remember the woodpeckers have more than paid for them. Don't kill your friends the woodpeckers. (Next article, Birds of Prey.)

COUNTY LOSING
\$2,000 A YEAR

Continued from Page 1.

the next eight years Indiana will receive approximately \$140,000 from the government, according to the terms of the Smith-Levering bill, which will be used to reinforce county agent work. It is not paid in actual cash but comes in the form of additional service, such as the visits of specialists in the various lines in which the farmers of any given county are interested.

Little Town of Thayer is Center of Amazing Activity.

(By United Press.)

Kentland, July 8.—Thayer, at little village in the northern part of Newton county, is the center of amazing activity these days, due to an oil boom that has struck that section, including many acres in southern Lake county.

Four thousand acres of land in these two counties have been leased to an oil and gas company and preparations are being rushed to drill wells. The field is within thirty miles of Whiting where the Standard Oil Company has its largest refineries. Natural gas has been used for years by residents for lighting and heating purposes.

Miss Luella Mauzy is suffering from ptomaine poisoning at the home of Mr. and Mrs. W. A. Mull, southwest of the city.

The annual reunion of the Kennedy family will be held Sunday at the home of William Whipple, northwest of Connersville. Several from this city will attend.

B. A. Black, local grocer, has filed an account suit against Herbert De Witt, demanding \$46.97. The suit was filed in the court of James Kratzer, justice of peace.

Persons passing the W. A. Alexander farm west of the city today commented on the fact that 5 double plows were working in one corn field and 2 binders cutting wheat in another.

Will Case, living on the Charles Alger farm north of the city, had a narrow escape from serious injury Thursday when the seat on a hay wagon broke and threw him under the heels of the horses. The horses were young and kicked violently, but due to Case's presence of mind, he escaped with only a few minor bruises.

INDIANA IN WAR TIME.

Warsaw—Mobilization of the national guard caused the cancellation of a street carnival to be given this week as a feature, of the Kosciusko county centennial celebration by Company H, the local company of the national guard.

Greensburg—Three words—"All is well" meant more to Mr. and Mrs. Edward Kessing of this city than any message they ever received. The three words made up a radiogram from their son, Ensign Oliver O. Kessing, who was in command of a party of sailors from the gunboat Annapolis who had a brush with Mexicans at Mazatlan harbor.

Hammond—Ralph Ross Jr., son of Attorney Ross of this city, is expecting to hear the "call to the colors" at any time. Ralph who is but ten years old, wrote to Governor Briston when the call went out for the mobilization of the national guard offering his services. The Governor replied saying, "I shall keep you in mind." According to Ross the reply amounts to a promise to use him should the occasion so demand.

Lebanon—Sister Susie will soon be sewing shirts in Lebanon. The Lebanon branch of "An American Woman's League" has increased its membership to fifty and in case of war will make bandages and otherwise look after the interests of the men at the front.

Winchester—If the Winchester company of the Indiana National guard is ordered to the border a collection will be started for a mess pot. Pledges already have been secured and should the company be ordered to entertain it is estimated that a collection of more than \$500 will be made.

SURPRISE

The Ladies Aid society of the Second M. E. church gave a very pleasant surprise on Mrs. Waller Friday evening. About twenty guests were present and enjoyed the dainty luncheon that was served. DRAW LINE ON COCKROACH

(By United Press.)

London, June 20.—(By Mail)—One hundred and thirty-eight women war workers who agreed to catch rats for a big London "Rat Catching and Vermin Destroying" establishment opened up a new discovery of feminine nature today.

They will gladly catch rats for \$10 a week but "cockroach decoying" is where they balk. It was where all but two of the rodent catchers balked today when the firm attempted to include destruction of the wily cockroach in the day's routine.

In addition to catching rats and mice, the firm also attempts to eliminate crawling members of the vermin family. When all the men vermin eradicators were forced to join the army, the firm advertised for women. There was a feminine rush for the job. The women were first taught the gentle art of snaring the rodents. Then came the coarse of cockroaches. "Nothing doing" was the general reply.

SOLDIERS GIVEN A BIG RECEPTION

Citizens of Rolla, Mo., Turn Out
Enmasse to Greet Battery B,
on Its Way to Border

CARD FROM A. H. BLACKLIDGE

Each is Given Postal Ready for
Mailing so They Can Write to
Folks Back Home

Mrs. John C. Blacklidge received a card this morning from her son, Allan H. Blacklidge, a member of Battery B. of Purdue University now enroute to the Mexican border. The card was mailed from Rolla, Missouri, where the citizens of the town turned out and gave the soldier boys a great reception. Each member of the battery was given a postal card, stamped and ready for mailing.

According to the card, the local boys are all well and in fine spirits and are enjoying the trip to the border despite the poor transportation facilities. The postal card received by Mrs. Blacklidge states that the battery is confident of ending up at Brownsville, Tex. The communication stated that all members would be elated if this were true as Brownsville is about 50 miles from the gulf and they figure that this should help the climate.

Mr. and Mrs. Blacklidge and Mrs. J. W. Gartin were in Indianapolis during the afternoon that the troops were enroute and were at Fort Harrison when the train carrying Battery B. left for the border. All of the Rushville boys are members of Battery B with the exception of William Hardin, Jr., who is a member of Company B, First Regiment. Hardin joined the infantry about two weeks ago.

The First Regiment is expected to leave for the border not later than today.

FOUND IN HIS HOME TODAY UNCONSCIOUS

Jesse T. Winship Suffers Stroke of
Apoplexy Some Time During
Night While Alone

IT IS THE SECOND ATTACK

Jesse T. Winship, a well known resident of this city, suffered a stroke of apoplexy this morning at his home, 324 West Ninth street. Mr. Winship was still unconscious at a late hour this afternoon and his condition is said to be critical. Mrs. Winship is visiting in Chicago. When Mr. Winship failed to appear this morning neighbors and relatives became suspicious and entered the house. This was at ten o'clock and he was found unconscious.

He appeared to be in his usual health last evening. This is the second stroke he has suffered, the first one occurring about one year ago. Little hope is held out for his recovery.

Congratulations To—

B. W. Riley, who is celebrating his eighty-fifth birthday today. Mr. Riley is quite active for one of his age and enjoys good health. For many years he was in the grocery business here.

The band concerts are backed by the merchants of the town, who subscribed liberally to the fund and have guaranteed the concerts for the rest of the summer.

GIRL IS SEVERELY INJURED BY FALL

Virginia Lucas, Age 8, Has Badly
Wrenched Neck Due to Accident
When Hammock Broke

THROWS HER TO PORCH FLOOR

Virginia Lucas, 8, suffered a severe injury last night when the rope supporting a hammock broke, precipitating her to the floor of the porch. The accident occurred at the home of Mr. and Mrs. Frank Grossman, near Falmouth, where she was visiting. She was removed to the home of her parents, Mr. and Mrs. Harry Lucas, 721 North Oliver street.

In falling the little girl hit the back part of her head and in some manner wrenched the muscles of her neck. This caused her great pain and today she could not turn her head so sore were the ligaments and muscles. The attending physician states that the injury will not be permanent, but that it would require several days before the neck would again be normal.

RUSH COUNTY IS SHORT NEAR \$9,000

Sends \$19,254.51 to State Treasurer
for School Purposes and Gets
\$10,815.42 Back

IS ALWAYS TO BE EXPECTED

Out of a total of \$19,254.51 sent to the state treasurer from this county for school purposes, Rush county received in return \$10,815.42. The check for this amount was received by the county treasurer this morning.

In the school revenue apportionment this county always loses close to \$9,000 in the settlement and this year was no exception. The amount sent the state and the amount received in return varies but little each year. Most of the counties in this district lose in the apportionment. The settlement with the state was made the first of this week and record time was made in distributing the money to the various counties.

LEE LINK FINED

Lee Link of Glenwood was fined one dollar and costs in Squire Kratzer's court this morning. He paid the fine and costs amounting in all to \$12.75. Link created a disturbance last night in Glenwood and when his wife complained he was arrested by Marshall Brooks. As there is no jail in Glenwood, Link was brought here for the night.

COUNTY LOSING \$2,000 A YEAR

Is Paying \$2,000 Annually as Vocational Tax and is Receiving
Nothing in Return

COUNTY AGENT, THE ANSWER

If One is Employed, County Receives
\$1,500 as Part Salary—T. A.
Coleman Explains Work

Rush county is paying approximately two thousand dollars a year as a state vocational tax and is getting nothing in return, whereas if the county had an agricultural agent, it would receive \$1,500 annually from the state fund to defray half the salary and current expenses of the county agent.

This information was imparted today by T. A. Coleman, formerly of this county, who has been spending the week here, with relatives. Mr. Coleman is in charge of the county agent work of the Purdue university extension department and is in position to know what is being accomplished in this line of endeavor.

All Rush county has to do to get a county agent is that enough farmers be sufficiently interested to subscribe \$500, which is to be put up as a bonus, and the county council appropriate \$1,500 annually to pay half the salary and current expenses of the county agent. The \$500 which the farmers put up as a guarantee is used to purchase permanent office equipment for the county agent.

Because Rush county has never taken any steps in this direction, there has always been an opinion that Rush county is not interested and does not want any county agent—that the farmers as a rule do not feel that they can be taught anything about farming.

Quite the contrary is true, according to Mr. Coleman, who said today that he has received many requests from Rush county farmers for information about how to acquire a county agent. It is a testimonial to the work of the county agent that most of the inquiries have come from farmers living in the northern and southern parts of the county who have come in contact with the accomplishments of the agricultural agents of Henry and Decatur counties.

The question of having a county agent in Rush county resolves itself into this; the county is paying a cent on each \$100 of taxable property as a state vocational tax and is not getting a cent in return. If Rush county had an agricultural agent, it would receive \$1,500 a year from this fund. In order to get that \$1,500, the county council would have to appropriate \$1,500 annually, which would be a tax of three-fourths of a cent on each one hundred dollars of taxable property. The city people, corporations, as well as the farmers, who receive the direct benefit, would have to pay according to the amount of taxable property. In other words, it is estimated that the county agent would cost the average Rush county farmer about thirty cents a year.

Of the ninety-two counties in the state, Mr. Coleman says, forty-five have or soon will have county agents and ten or twelve others are making plans to get them. The biggest problem confronting those in charge of this work is to get competent men to act as county agents. Out of forty-five counties, only three have tried the county agent and decided that they did not want one for the present.

In addition to all the other things Rush county farmers are missing, in

TWO RICHMOND OFFICERS SLAIN

Policeman Little and Stephenson
are Fatally Shot by Drunken
Freight Hand

BOOZE BLAMED FOR TROUBLE

Eli S. Carr, Murdered, After Being
Captured Escapes and is Finally
Brought Down

Richmond, Ind., July 8.—Two police officers, George M. Little and Elmer Stephenson, were shot and killed by Eli S. Carr, a truckman at the Pennsylvania freight station, North D street, shortly after midnight today after they had responded to a call sent in from the freight station following Carr's attempt to shoot E. B. Dowdy, night foreman of the freight office. Later Carr attempted to escape, after he had been turned over to Officer Charles Kuhlman by station employees who had seized him, but was brought down with a bullet in his left hip, fired by Kuhlman. Carr was taken to Reid hospital under police guard.

Officer Stephenson was the first one shot by Carr. He died within five minutes in the arms of Eden T. Woods night watchman at the freight station.

Patrolman Little, after Stephenson had been shot, engaged in a revolver duel with Carr. After he had been mortally wounded with a bullet in the chest, Little gallantly closed with his whiskey-crazed antagonist. As he grappled with him, Little received a second bullet in the chest. In falling he pulled Carr down with him, and held him until he had been seized by truckmen and other freight house employees.

As soon as possible Little was hurried to Reid hospital but died as he arrived at the institution.

Within ten minutes after Little and Stephenson had been killed, Officer Kuhlman arrived at the station and took charge of Carr. After he had gotten from the freight shed to the sidewalk, Carr suddenly broke loose, dashed to the shed platform and bolted north, apparently hoping to secret himself in some box car. Kuhlman, after he had followed his quarry a short distance, fired at him, the bullet taking effect in Carr's left hip, crumpling him up on the platform. Later Carr was removed to the hospital. His wound is not serious; it was announced at 2 o'clock this morning.

Booze was responsible for the tragedy which claimed the lives of two of the most popular and efficient members of the police department.

About 7 o'clock last evening Carr who is single and has been living at the boarding house of Mrs. Ollie Uhly, 210 North Seventh street, reported for work at the freight station in an intoxicated condition. After working a short time, he was ordered away by Night Foreman Dowdy who told him he was in no condition to work. About midnight Carr, more intoxicated than ever, returned to the freight office, and asked Dowdy if it was his intention to "turn him in" that is, report him. Dowdy told him he intended to do so. Instantly Carr pulled a revolver and pointed it at Dowdy, who was in a chair. As Dowdy jumped Carr shot, the bullet lodging in the wall. Carr then left the room but remained in the train shed. Police headquarters was notified of the incident and Sergeant Staubach, detailed Officers Little and Stephenson to arrest Carr.

As the two officers entered the train shed Carr pulled his revolver

AN OLD CHARGE RENEWED

George Newland Accused of Provoke
and Assault and Battery

Affidavits against George Newland charging provoke and assault and battery have been filed in Squire Kratzer's court. The charges were filed by William Cross. These are the same charges that were filed some time ago before Mayor Behout but were withdrawn before the cases came up to trial. Newland asked for a change of judge from Squire Kratzer and Harley Frazier was appointed to hear the cases. Judge Frazier then set the cases for trial at ten o'clock on the morning of July 17.

THIRD UNIT WAS ENTRAINING TODAY

Signal Corps of Indianapolis and
Ambulance Corps of Frankfort
Will Leave for Border.

SECOND INFANTRY IS DELAYED

(By United Press.)

Fort Benjamin Harrison, Indianapolis, Ind., July 8.—The third unit of the Indiana National Guard, consisting of the signal corps of Indianapolis and ambulance company No. 1 of Frankfort began entraining at 7 o'clock this morning and will leave late today for the Mexican border.

The destination of the unit which is designated as "special troops," is believed to be either Brownsville, Texas, or the neighboring town of Mercedes. The troops will travel on one train of fifteen cars.

The entrainment of the Second Infantry, scheduled for tomorrow, is uncertain, guard officers said this afternoon. The leaving of the regiment may be held up by failure of mustering in of Company E. of Kokomo and Company M. of Princeton. Lieutenant-Colonel Toffey has wired the war department for instructions in the case of the two companies, but no answer had yet been received this afternoon.

Unofficial figures this afternoon showed that the Second Regiment will lose more than two hundred men through failure to pass the physical examination.

ALLIED OFFENSIVE BEGINS 2ND WEEK

Although Hindered by Sea of Mud
British and French Troops
Both Claim Slight Gains

FORMER CAPTURE 400 MEN

(By United Press.)

London, July 8.—The great offensive of the allied armies entered its second week today with the allies everywhere attacking and maintaining their early gains at practically every point despite heavy enemy counter attacks.

A heavy downpour of rain throughout yesterday afternoon converted the battleground on both sides of the Somme into a great sea of mud last night and seriously handicapped operations. Despite this handicap the French war office today claimed slight further progress south of the Somme with the taking of 400 prisoners.

CARRANZA AND VILLA MEN MEET

Reported This Afternoon to be Engaged in a Desperate Battle
Southeast of Jiminez

OFFICIAL NEWS RECEIVED

Declare Villa Himself is at Head of
Force of 3,000 Men Which is
Marching on Parral

(By United Press.)

El Paso, Texas, July 8.—A desperate engagement is raging southeast of Jiminez between two thousand Carranzistas and eight hundred Villistas, led by General Contreras, according to official advices today, to General Gonzales of Juarez, in a delayed message from Chihuahua City.

Villistas are rushing toward the Big Bend country to raid American towns, according to information received here earlier in the day.

Sweeping across the Chihuahua wastes from Falmuir, toward La Mula Pass, a band of Villistas of unknown strength is reported to be moving towards Ojinaga and the small American settlements in the Big Bend border country.

Official advices reported Francisco Villa himself at the head of 3,000 men advancing to attack Parral. Villa, the report stated, evacuated Jiminez, which he captured two days ago and cut communication lines northward through Parral.

Villa was first reported today to be marching from Jiminez to Chihuahua City while contradictory advices from Carranzista sources declare that de facto government troops have reoccupied Jiminez and are driving the bandits southward. Carranzista officials would not admit at first that Villa himself is leading the rebels.

The Villistas have issued new Mexican currency. Millions of the bandit leader's old currency is held throughout Chihuahua and he is reported to have obtained much support by promising to redeem the now practically worthless paper.

E. M. TALMERTON DIES

Orange Township Farmer Expires at
His Home Friday Evening

Erasmus M. Talmerton, a well known farmer of Orange township, died Friday afternoon at five o'clock at his home there following a complication of diseases. Mr. Talmerton was a member of the United Brethren church and was affiliated with the Odd Fellows and Red Men lodges. He is survived by his widow and five sons, Elmer, of St. Paul, Frank of Orange township, Albert of St. Paul, George of Waldron, and Paul at home, and two daughters, Mrs. Emma Browning, of St. Paul, and Mrs. Kate Kelo of Mooresville. The funeral services have not been completed.

QUALITY OR PRICE

Which should you consider when you let a contract for painting? Quality means maximum protection for the greatest possible period of paint durability. Low prices—well, look at the cracking and scaling paint on houses where the owner considered price before quality, and you can judge for yourself.

We do Quality Painting only with Carter's White Lead and Oil.

HAS CARBURETOR TO USE COAL OIL

Cleveland Man Believes he Has Invention That Will Soon Reduce Cost of Motoring.

GETS 12 MILES ON GALLON

(By United Press.)

Cleveland, July 8.—About a month from today George A. Eynon, a local machinist, will begin to market a carburetor that will, it is claimed, gladden the motorists' heart by running his car with coal oil instead of priceless gasoline.

Eynon accidentally discovered the principle by which he devised his carburetor. One day he spilled some oil on a rag and carelessly brought a hot iron near. Vapor was given off. The problem was solved.

Eynon accidentally discovered the thin wire around a few shreds of asbestos and sent an electrical current through the wire. The asbestos acted as a wick and the heated oil vaporized enough oil to start the engine. As soon as the engine is started, the electricity is turned off and vaporization is maintained by the burning of a little oil in a combustion chamber.

A test proved that a car could be driven 63 miles on four and a half gallons of coal oil. Heavy cars fitted with the carburetor have made 11 to 12 miles on a gallon of kerosene.

Indianapolis Republicans Wondering Whether Employment Agency Is Taking Negroes for a Purpose

DOUBTFUL ABOUT MOTIVES

Three Hundred are Carried to Akron O. Cartage Paid, Which Arduous, Some Suspicious

Indianapolis, Ind., July 8.—Republicans are keeping an eye on certain things that are taking place in this state in connection with the federal free employment bureau, which is now in the hands of the Democratic administration. There is a suspicion among many of them that some of the recent doings may not be entirely free from a political tinge, and this has caused some of the Republicans to decide to watch developments.

A few days ago there appeared in certain newspapers an advertisement for three hundred negroes to take employment with a manufacturing concern at Akron, Ohio. The advertisement said the negroes would be transported to Akron without expense, would be given steady work at good wages and that the job would last at least a year.

Negroes were requested to present themselves at the Federal free employment. The result was that something like two hundred negroes appeared at the bureau and accepted employment. It is now said that others are to try to hire a large number of men in Indiana for work in other states.

It is a well known fact that practically all of the negroes are Republicans, and there is a lingering suspicion that there may be a Democratic political scheme in getting several hundred of them to leave Indiana before the November election, and thus cause them to lose their votes.

Nobody seems to know as a certainty that this is the plan, but it is something that will bear watching in the estimation of some of the Republicans who look out for the party's welfare.

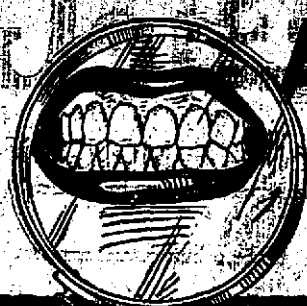

If some such plan could be worked and thus far take a few thousand Republican negroes and other workmen out of the state and keep them out of the state until after election, it would profit the Democrats to just that extent.

There is not a dollar of Wilson money in sight on the betting boards of Indianapolis. Before the Chicago Convention a few small offers on Wilson at even money were posted, but it was snapped up in quick order when Col. Roosevelt declined the nomination for the presidency on a third party ticket and announced that he would support Hughes. There is an abundance of Hughes money, but to date not a single proposition posted on any of the Indianapolis boards has been taken.

Progressive county tickets that were named in the March primary are disintegrating at a rapid rate. Invariably the men honored with these nominations, in giving them up, announce their intention of supporting the Republican ticket. In withdrawing as a candidate for county treasurer on the Wabash county Progressive ticket F. J. Bechtold, of Wabash, said: "Under the present condition of national affairs I think there should not be a third party in the field and I am going to support the Republican ticket from President down."

It is reported from Winona that W. J. Bryan delivered a speech there on the Fourth of July to fewer than one hundred people. The time was when the announcement of a speech by Bryan, now as strong a Democrat as he ever was, in Indiana drew people by the thousands, but apparently the same kind of announcement now fails to bring them out.

A Discovery about your TEETH

Tonight, if you will closely examine your teeth after brushing them, you will make a surprising discovery. Though you have been cleaning your teeth regularly, you will find an accumulation of tartar on the enamel and bits of food deposit hiding between the crevices. Your dentifrice has not been REALLY CLEANING!

Loss of teeth is usually due to one of two conditions—Pyorrhea or Decay, both of which ordinarily develop only in the mouth where germ-laden tartar is present. CLEAN your teeth—REALLY CLEAN them! Senreco, a dental specialist's formula will do it. Senreco embodies specially prepared, soluble granules, instantly effective in dissolving tartar and decay, and in whitening teeth. Go to your dealer today and get a tube of Senreco. It is the ONLY REAL CLEANING tooth powder. Send 4c to Senreco, 304 Walnut St., Cincinnati, Ohio, for trial package.

"Laugh and the world laughs with you; snore and you snore alone." That is the motto of Billie Ritchie appearing today at the Gem in the comedy "Live Wires and Love Sparks." Others on the program are Myrtle Gonzales, Fred Church, Peggy Pearse, Gene Rogers and Val Paul. Monday, matinee and night "Hazel Kirke," the latest of the Pathe Gold Rooster plays will be shown. Pearl White the charming Pathe player is featured. She is supported by Creighton Hale, Bruce McRae, and William E. Hatch. The story is of Hazel Kirke, a beautiful young girl, who saves her father's mill from foreclosure through her friendship for Squire Rodney, her wealthy neighbor. On Wednesday Annette Kellerman in "Neptune's Daughter" will be shown. Seats are on sale at Fox Brothers. The Gem theatre has recently been decorated and presents a fine appearance.

The Princess offers the Chaplin comedy "The Floorwalker" for the first picture tonight. It is said to be a riot from start to finish and Charles Chaplin is said to be seen at his best. "The Rookie" is the title of a one act drama with Dorothy Kelly and Evert Overton featured. Hughie Mack, and Kate Price are shown in the comedy "Terry's Tea Party." The last is a two act drama "The Little Samaritan." Monday, matinee and night the Princess will show the Metro production "The Yellow Streak." Lionel Barrymore and Irene Howley are featured. It tells the story of how a wronged and ruined man, a helpless atom in the scheme of human life, is brought to the verge of suicide by forces over which he has not the slightest control. How he is saved through rescuing a despairing girl is an inspiring story.

Problems After the War.

"No living man," declares the

Houston Post, (Democratic)

"can at this time anticipate the far-reaching

adjustments of the world's interna-

tional relations. No living man can

contemplate, even the results that

are just ahead without realizing

what a solemn and tremendous re-

sponsibility is soon to fall upon the

shoulders of those who must direct

the future course of the govern-

ment."

Yet millions of living men are

thinking of that time and of its re-

sponsibilities, and they are planning

to shape their immediate political

action so that the "solemn and tre-

mendous responsibility" of which

the Houston Post speaks may fall

upon shoulders which are capable to

bear it.

"The small domestic problems

around which our customary parti-

san contests have raged are as

nothing compared with the world

aspects of the problems just ahead.

"With all this we are in cordial

agreement.

Yet it will not do to lose sight en-

tirely of our domestic problems—for

upon the manner in which we deal

with them will depend—very largely,

as the President would say—our

success in dealing with the greater

world problems which will be thrust

upon us. For example, if we are to

leave ourselves without tariff pro-

tection after the European war

ceases, we shall be in no position to

cope with the commercial problems

which will come upon us with the re-

lease of Europe's fighting millions

from the trenches and with their re-

turn to productive pursuits.

Strong and capable constructive

statesmanship will be the crying need

of this country after Europe's war is

over; and the election next Novem-

ber will show whether we are to

have it or not. If a Republican

President and a Republican Con-

gress are chosen, we may look with

confidence for a proper solution of

the problems which will present

themselves. If the present vacilla-

ting administration is to be continued

in office to control legislation, the

future will be dark with misappre-

hensions. The record of the two

parties will show which is the more

deserving to take up the "solemn

and tremendous responsibility."

"There can be no two opinions about

it. It is the Republican party which

HUNDRED LEAD-

ING HOOSIERS

Oliver Hampton Smith.

Born on an island in the Delaware

river and educated in the district

schools, Oliver Hampton Smith came

to Indiana at the age of 23. He lived

for a time at Rising Sun but later

moved to Connersville.

Smith practiced law in eastern In-

diana with great success. He was

elected to two terms in Congress

and in 1836 was elected United

States senator. Six years later he

was defeated for senator by one

vote.

The Bellefontaine railroad was the

conception of Smith and to him was

due its completion. He devoted his

last years to literature. He died in

1859.

Current Comments

Hoch-Der, Hyphen!

(Washington Herald)

Descendants of men who were

shooting at the flag in the sixties

now are talking much about Ameri-

cans of German extraction and

questioning their loyalty to the gov-

ernment of the United States. Most

of these critics are Democratic poli-

ticians who want to see Wilson re-

-elected. The others are anglo-mani-

acs. When the supreme test of

loyalty came, the Germans in the

United States stood by the flag, and

it was the proud boast of many

thousands of them that they "fought

mit Sigel," the famous German-

American general of the Union

forces in the civil war.

Hughes Is Human.

(Columbus Republican)

A Democratic editor recently

made a perfectly good pun when he

wrote "Just Lee Hughes." He would

have had his readers believe that

Mr. Hughes is a human icicle and

that the whiskers adorning his chin

are frozen there. But the more the

Republican candidate for the presi-

dency speaks, the more human he

becomes.

In an informal talk to the villa-

gers at Easthampton, N. Y., Mr.

Hughes said: "I have been long on

silence and short on talk. It is an

odd experience that I am now going

through, picking up the threads of

old relations. I think I have lived

at least five years in the last three

weeks."

This is typical of the man. When

he was a member of the Supreme

Court of the United States he felt

the dignity of his position. He real-

ized that he was not expected to

speak in public or to discuss public

questions. He was an officer of the

highest court of the land and it was

his business to weigh the law and

the evidence when important litiga-

tion came to that court of last re-

sult. But now he has thrown off

that restraint and becomes just

plain Hughes the human.

The dream Mr. Hughes has of the

future is a dream the people of this

country are going to help him make

a reality. Here is the future as he

views it:

"My dreams of America is Ameri-

ca represented in public office by its

men, men working entirely for

the good of the republic and accord-

ing to the laws and ordinances es-

tablished by the people for the gov-

ernment of their conduct, and not

for their personal or political desires

and ambitions; America working

her institutions as they were intend-

ed to be worked, with men whose

sole object shall be to secure the end

for which their offices were designed.

"And if one will throw his person-

al fortune to the winds, if he will

perform in each place, high or low,

the manifest obligations of that

place, we will soon have those vic-

tories of democracy which will make

July Fourth in its coming years a

far finer and nobler day than it has

ever been in the fortunate years of

the past."

REPUBLICANS ACTIVE

ALL OVER THE STATE

The period for which Republicans

of Indiana have been preparing ever

since election in 1914 is at hand. It

will be recalled that more Republi-

can meetings were held in Indiana

during 1915 than ever before during

an "off year." They were getting

ready for the present campaign. As

a result of that preliminary work

the party enters the present contest

full of enthusiasm, absolutely con-

fident of an overwhelming victory

and hoping that the Democrats will

put up a real fight. The disposition

to organize tightly is evident ev-

erywhere; no one intends to take

anything for granted. The ultimate

aim of all Republicans seems to be

to roll up a plurality in November

of a size that will demoralize the

Democratic opposition for years to

come.

That's why so many meetings are

to be held throughout the State

during the hot days of July and

August.

On July 18 the Republican editors

of the Fourth district will hold a

meeting at Madison, the home of

Manley D. Wilson, Republican nom-

inee for Congress. Bert Morgan,

district chairman, has issued a call

for all Republican county chairmen

and secretaries of the district to

meet with the editors for the pur-

pose of discussing plans for the

fight in that district.

On July 19 the Republicans of

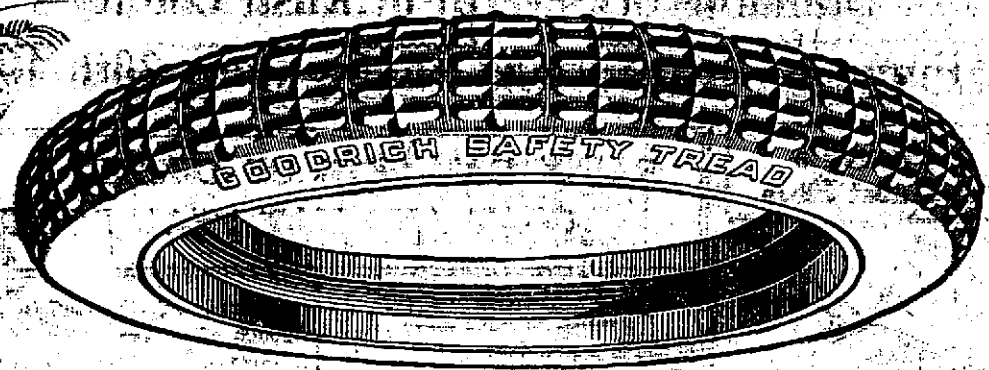

Elwood will hold a meeting. Capt.

Harry S. New and James E. Watson

Republican nominees for United

States senator, will be present.

On July 2

Three Million Auto Tires made— by GOODRICH, in year 1915

STUDY the Price-List publicly printed below.
Compare with the List-Prices of other Tires made in LESSER Volume.
Observe that competing Prices are higher in almost the exact proportion that VOLUME of production is smaller.
This, when Quality approaches the Goodrich Standard.
Cut our 1915 Tire Output (of 3,000,000 Auto and Truck Tires) to One-third, and it would still far exceed the Average of all Competing Makes or Brands.
But, that huge reduction in Volume MIGHT result in every Tire we made costing you One-third MORE than present prices.
They would not,—and could not,—be BETTER Tires, at this necessarily higher-cost to Us, and higher-price to You.
Because,—Goodrich Tires are not made “up to a price,”—nor “down to a price.”

WE, first of all, make the BEST Fabric Tires that our 47-year Experience in Rubber-Working,—our huge Purchasing-Power, and the most Advanced Equipment, renders possible.
Then we let Cost fall where it will.
To that Cost we add a moderate, and fair, Profit for Ourselves and for our Dealers.
Then we let VOLUME rise,—as it will.
The more Tires we Make, the LESS each Tire COSTS us to produce,—and the less it costs YOU to buy them.
The more Tires we Sell, the less profit, per Tire, WE NEED, for dividends.
The more Tires we make, the better we KNOW HOW to make them,—the more we have at Stake on Quality,—and Satisfaction to Consumers.
And,—because of all this,—
—The BEST Fabric Tires that Skill,—Experience,—Good-Faith, and Maximum Volume, can build,—are now available to YOU at the VERY MODERATE Fair-List Prices here quoted.
Why pay more for ANY Fabric Tire?

TWO RICHMOND OFFICERS SLAIN

Continued from Page 1.

again and opened fire. The first shot brought down Stephenson with a bullet in the chest. As he fell he called to Night Watchman Woods. When Woods raised the stricken officer's head from the floor he gasped and died. In the meantime Little and Carr were engaged in a short range gun fight. Before Little, who was the crack shot of the department and one of the best revolver marksmen in the state, could draw his weapon Carr had staggered him with a bullet in the chest. Came to the last Little, after receiving his death wound staggered toward Carr and grappled with him, receiving a second bullet in the chest before he could seize the murderer. His final effort was to pull Carr down to the platform. Just before Little lost consciousness several freight house employees seized Carr, holding him until the arrival of Officer Kuhlman.

Where the battle between the two police officers and the desperado occurred the platform flooring is stained with the life blood of the murdered men.

Very little is known of Carr. He has resided in the city for some time it was stated at the Pennsylvania freight station, where he worked most of the time and had a fairly good record. The murderer has never been in any trouble while a resident of Richmond and is not known at police headquarters. No information concerning him was obtainable at his boarding house early this morning.

Carr was removed from Reid hospital to the county jail about two o'clock this morning in custody of Officers Wenger, Bundy and Yingling. He was shot through the fleshy part of both hips and is not seriously hurt. He wanted to be carried up the stairs at the jail but was required to walk. His yells aroused nearly all the prisoners.

Asked why he shot the police officers and attempted to kill the night foreman at the freight station he replied curtly that he was angry because the foreman was “going to turn him in.”

At the hospital it was discovered that Carr had a deep cut in his head, which was received, it was learned later, from Officer Stephenson's mace. Stephenson struck Carr just after Carr had shot him.

PREDICTS DECENT WEATHER IN JULY

For First Time in Many Moons Prof. Hicks Runs Light on Rain and Heavy on Sunshine.

TO WILL BE SOME COOL DAYS

For the first time in many moons, Prof. Hicks has predicted some decent weather for July. If he is as near right as he was about June, some cool days and sunshine may be expected.

He says a reactionary storm period was to open on the 7th and last until the 12th. About the 9th, he continues, the weather will grow very warm and there will be local downpours that will cause local floods. Following this the weather will turn phenomenally cool and fair.

From the 14th to the 16th the weather will grow exceedingly warm and there will be general storm conditions, followed by storms of rain and wind. These storms will end rapidly and will be attended by hail.

From this time on until the close of the month will be minimum rainfall, and light and scattered rains only are expected. On the 29th a maximum heat wave is scheduled that begins on the 25th.

Two eclipses are scheduled this month. The annual eclipse of the sun, on the 29th, which is not visible to this country, and the eclipse of the moon on the 14th, which will be visible in part.

Young Ladies Mission Circle of Christian church, leave at 6:07 for Connersville to be guests of Mrs. Edward Jeffries.

HOUSE-GUESTS RETURN

The house-guests of Mr. and Mrs. Theodore Reed returned to their homes this morning. Mrs. Cole going to Wisconsin, Mrs. Hunt and Mrs. Hadley returning to their homes in Anderson.

ATTENDED CONVENTION

Miss Anne Hanlan of Hillsboro, Ohio, who has been attending the Delta Zeta convention in Lincoln, Neb., stopped off last evening for a short visit with Miss Helen Scudder before returning to her home. Miss Hanlan was a student in Miami university last year.

ALL DAY PARTY

Mrs. Sarah Giffin entertained with an all day affair yesterday when a delicious dinner and supper were served. The guests were Mrs. Lucinda Giffin of Chicago, Mrs. Ed Wilson of Indianapolis, Mrs. William Carney, Mrs. Theodore Friend, Mrs. Susan Tingley, and Miss Bertha Hungerford. A social good time was enjoyed throughout the day.

GUESTS AT DINNER

Mr. and Mrs. T. O. Havens entertained the following relatives for dinner Friday: Mr. and Mrs. George Havens and Miss Mary Scanlon of Rushville; Mrs. Chester Fuller, of Detroit; Mrs. Isaline Conaway and daughter Lea, of Connersville, and Mr. and Mrs. John H. Batterton and daughter, Miss Helen—Greensburg Times.

ALL DAY PICNIC

Plans are being made by the members of Psi Iota Xi for the all day picnic they are to have Thursday as the guests of Miss Lucile Gray at the home of Mr. and Mrs. Morton Gray northeast of the city. The girls are to go in the morning and spend all day on the attractive country place. The dinner is to be served by the members of the first division.

IMPORTANT MEETING

An important meeting of the visiting nurse association will be held at the home of Mrs. A. G. Reeves at her home at 125 East Sixth street on Monday evening at 7:30 o'clock. The committee appointed to frame the constitution and by-laws is ready to report and for this reason a full attendance is desired.

VISIT CONNERSVILLE

The members of the Young Ladies Mission Circle of the Christian church are invited to Connersville Monday evening to be the guests of Mrs. Edward Jeffries, formerly Miss Bertha O'Neil of this city. They are planning to leave on the 6:07 traction car. The local members will give the program and conduct a regular meeting there.

What The Women's Clubs Are Doing

As a part of the Centennial at Connersville, the Clio Club of that city donated a public fountain.

Between August 15th and September 1st, the voters of this county and every other county in the state will be swamped with literature from the Franchise League. Personal campaigns are to be made also in the interest of woman suffrage. The object of this vigorous campaign is to influence voters to put men in office who favor woman suffrage. The woman's franchise leagues over the state, of which there are quite a few, will take an active part in the movement.

At the last meeting of the Nature Research Club of Newcastle, a program was followed by a tramp when flowers and plants were classified.

A flourishing union meeting of several W. C. T. U. associations was held last Sunday at Mount Lawn. "The Responsibility of Our Government for Rum Traffic in Foreign Lands" was the subject of a forceful paper. Mrs. Outland of Knights-town was the one out of the seven contestants winning the gold medal in the speaking contest. By means of these contests, public sentiment for temperance work is increased.

A joint convention of the Woman's Franchise League of Indiana and the Equal Suffrage association of Indianapolis is being arranged for early in the fall. An effort will be made to amalgamate the two societies, which "Travel in Indiana" was ably discussed. Woman's Suffrage association.

Miss Vida Newsom of Columbus is chairman of the pageant committee there, and is actively engaged in working out plans for the pageant.

Next year, the Woman's Club, of Elwood will study "Women in Poetry, Play and Story", and interesting numbers have been planned for each of the meetings.

At the last meeting of the Athenaeum Club of Evansville, the very timely subject of "Transportation and are both affiliated with the National sed in a paper by one of the members.

AT THE WYATT HOME

Mr. and Mrs. George C. Wyatt and daughter, Wanda, are giving a pretty little dinner party this evening at their home in North Main street. The affair is in honor of Miss Josephine McNeil of Winchester, Ky., who is visiting here, and of the Rev. and Mrs. C. M. Yocum, who leave Monday for Pennsylvania where they will visit for several weeks while the Rev. Yocum is regaining strength after an operation. Other guests will be Miss Alma Green Mr. and Mrs. Warder Wyatt and children.

COUNTRY CLUB

Fifty members of the Country Club and guests gathered at the pretty country home of Mr. and Mrs. Wilbur Warner south of the city Thursday evening and had one of their delightful club meetings. The affair was purely social, with games music and dancing throughout the entire party. Dainty refreshments, too, were served during the course of the evening. Guests from Milroy and the vicinity and Mr. and Mrs. Henry Hurst and Mr. and Mrs. Charles Goble of Shelbyville were there. It was decided to have the regular club meetings on the first Thursday in each month during the summer months, after which the regular weekly meetings will be resumed.

FOR MISS COHEE

The 21st birthday of Miss Marie Cohee was celebrated in an ideal way this afternoon when in her honor a surprise was given by her mother Mrs. James Cohee at their home

Former Fushville Girl is Guest Here

MISS JOSEPHINE MCNEIL

Miss McNeil of Winchester, Ky., who has been the guest of Miss Beatrice Reeves for the past few weeks, has been one of the seasons most attractive visitors. She is an accomplished vocalist, pianist, and is a student in the college at Winchester. Her visit is a particularly interesting one inasmuch as her parents formerly lived here, when the Rev. Mr. McNeil was pastor of the Christian church.

LESS MEAT MORE FRUIT.

The summer diet should consist chiefly of fruits, berries, fresh vegetables, salads, fish, eggs and occasionally meat. You will be surprised to find how much nourishment can be taken without eating a single mouthful of meat. The system will not suffer in the summer from a diet made up largely on the vegetarian basis. Meat heats the body and adds to its discomfort. For this reason very little of it should be eaten during the warm days. On the other hand, a light fish cooked several hours before the meal and then served cold with rich mayonnaise dressing will provide just as much nutriment as the meat in a more agreeable manner.

Devised eggs are delicious on a hot summer day; so is egg salad, served either with a mayonnaise or French dressing. Fruit and vegetable salads are always welcome when the days are warm, and a slice of cold meat will be relished occasionally. When meat is served, however, it should be cut very thin and should be eaten sparingly, accompanied by fresh vegetables and fruit.

SUMMER DESERTS FROM FRESH FRUITS

The following recipes, particularly appetizing because they include some of the summer's most tempting fresh fruits, are used and recommended by some of Rushville's best cooks.

CHERRY ROLL

Make a rich pie crust, roll out and spread with butter; cover thickly with cherries; sweeten and roll up. Bake in pan. Sauce—Juice of cherries with a little water, sugar, butter and flour. Pour in pans and bake 45 minutes.

PINEAPPLE PUDDING

Cut 1 large pineapple into small bits, and strew with sugar; let stand three hours; stir into a quart of boiling milk, the yolks of 6 well-beaten eggs, 1 cup of sugar, 1 teaspoon of salt and 6 tablespoons of corn starch or flour well moistened with milk; let thicken well, and then when cool pour over the fruit. Beat the white of the eggs with 3 tablespoons of sugar; spread over the top and brown lightly.

RAINY DAY SETS OF OILSKIN COAT AND HAT REAL DUCKY

BY MARGARET MASON
(Written for United Press.)

Oh she is a rain dear
In oilskin chapeau
And slick coat of oilskin
From neck to her toe.

New York, July 8—Ducks aren't the only creatures that love to take a promenade on rainy days. All the dear feminine creatures of the human race are just crazy about summer showers now that the swagger new rainy day sets of oilskin and hat are for sale. No wonder, for they are awfully ducky too.

Each sweetheart, wife and mother finds she is a little rain dear in these slick new outfits, but alas, every husband and father finds the rain a little dear for him also.

He disagrees with the soothsayers who advise you to put a little away for a rainy day. Father finds it wiser to put away a lot against the coming of this 1916 rainy season.

These new transparent raincoats of brilliant hued oil-silk that looks like isinglass we had with us in limited quantities last season, but this summer they have burst forth in profusion and variety and are topped off with the most perky of little slouch hats to match.

These hats come in two models, one fashioned solely of the oilskin with a stitched brim and a fold and pump bow of the same around the soft crown. The other is a little soft shaped affair of the oilskin lined throughout with the same shade of taffeta that pulls down snug on the head and allows the floppy brim to turn up or down or every which way to suit your face or fancy. A narrow

band of the taffeta passing through oilskin straps ties in an adjustable and fetching bow on the left side and thus regulates the head-size.

These desirable rainy day outfits that are as serviceable as they are charming come in all decorative colorings of vivid green, Mediterranean blue, amber, cerise, purple and white as well as sober black and grey—both pearl and Oxford.

When you glimpse the new umbrellas you'll spend all your time praying for rain. They are chunky and stubby and adorable and also dear.

They are called sun umbrellas and can be carried equally well in rain or shine but they really are more rainy looking.

They come in black, purple, green, red and blue and all have stocky little clubby handles with either a loop of braided leather like a cowhide whip to slip over your wrist or else they have stunning white ivory rings for the same purpose.

These with the white bracelet effects have their little blunt stiff ferns tipped with the white and also the ends of their ribs.

Others not quite so stubby but most attractive have handles of amber and there are also some with handles of white capped in green or blue and some with handles of black and white stripes.

Truly the rain is a blessing to bring out not only nature's flowers but all the fair human Roses, Pansys, Myrtles, Daisies, and Irys so smartly hatted, coated and umbrellaed.

Household Hints

The most efficient method of removing that oily deposit which forms on the sides of the porcelain bathtub and bowl is to use kerosene. Take some soft paper, moisten with kerosene and rub over the soiled part. This will cut the grease easily and the extra kerosene can be wiped up with more paper, which, with the first, should be burned, to avoid danger. The fixtures may then be washed with plenty of soap and hot water and they are clean. This method requires very little rubbing and is not injurious to the finish.

Avoid the use of soda or scouring powders. These will in time injure the finish of the enamel.

To remove brown stains caused by standing or dripping water use a little oxalic acid and wash out with plenty of clear water. This is very effective.—Nellie M. Kilgore, Colorado Agriculture College, Fort Collins, Colorado.

Now that good lace is so extensively used, it is well to know that it may be cleaned by brushing with alcohol or gasoline. Metal lace may be cleaned by boiling in salt and water—Four tablespoons of salt to one quart of water.

Instead of folding tablecloths after they are washed, roll them, folded once or twice lengthwise on mailing tubes of cardboard. This makes a smoother cloth, with fewer creases, which is, of course, to be desired.

To remove tea and coffee stains, stretch the stained place over a bowl and pour boiling water through the stain.

Soak new brooms in strong, hot salt water before using. This toughens and makes the broom last longer.

To remove mildew rub over marks with the juice of a raw tomato, sprinkle with salt and lay in the sun.

My Son

By ADA TYRRELL

Here is his little lambie frock
That I laid by in lavender so sweet
And here his tiny shoe and sock
I made with loving care for his dear feet.

I fold the frock across my breast
And in imagination, ah my sweet,
Once more I hush my babe to rest
And once again I warm those little feet.

Where do those strong young feet
now stand
In flooded trench, half numb to cold or pain,
Or marching through the desert sand
To some dread place that they may never gain.

God guide him and his men today,
The death may lurk in any tree or hill,
His brave young spirit is their stay,
Trusting in that they'll follow where he will.

They love him for his tender heart
When poverty or sorrow asks his aid,
But he must see each do his part—
Of cowardice alone he is afraid.

I ask no honors on the field
That other men have won as brave as he—
I only pray that God may shield
My son, and bring him safely back to me! —Literary Digest.

CLEVER CONTEST

At a party for young people, the following contest would cleverly entertain them:

The Egg-otist (Herbert Miller.)
The following items must be filled out, using words which begin with your own initials: 1. Description of self (Headstrong Matty? 2. If you yourself who would you rather be? (His Majesty?) 3. Chief fault (Harmless Meddler?) 4. Your hobby (Haranguing Mobs?) 5. Height of your ambition (Hanging Millions?) 6. Favorite flower (Hanging Mistake?) 7. Favorite occupation (Handling Money?) Woman's Home Companion.

HER DEATH NEAR

So Everyone Thought, But Is Now Well And Stronger Than Ever.

Newton, Mo.—"I can certainly speak a good word for Cardui, the woman's tonic," says Mrs. Jay Shaffer, of this town. "I suffered for 12 years with my right side, and the last three years, I would have a bad spell with it about every three months. I could get so bad off, every one would think I could not live. The first of July, I began taking Cardui, the woman's tonic, and I had a bad spell since soon after I began taking it. Since taking Cardui, I was so a better, and at times, I could hardly get on my feet. Now, I can clean and do any kind of work without the hurting me in the least. I shall surely do for other women what it did for me. I am telling my neighbors about it. Cardui is a mild and effective tonic for women, that has been found, by actual use, during more than 50 years, to relieve the ailments to which all women are peculiarly liable. Cardui has helped thousands. Why not you? Try it. NCB

Some Birds Worth Knowing

(By Dave Alter.)

The Woodpeckers.

The United States department of agriculture is interested in these people to the fact that birds are our friends and helpers and that they are worth protecting. Believing that the woodpecker should be protected, this article is written with the hopes that it may save the life of some of them.

Kinds of Woodpeckers.

There are many kinds of woodpeckers in the world; twenty-five in North America and six kinds in Rush county, namely—Downy, Hairy, Red Head, Yellow Bellied Sapsucker, Guinea and Black, or Yellow Hammer. They are found above in the trees, beginning with the smallest. Each of these woodpeckers is very useful, but as they are so common here we do not spend much time admiring their beauty.

Some of these birds are permanent residents and some are migrants, the Red Head being more likely to migrate than the others. It seems that the food supply determines whether or not they shall migrate. When the Red Heads do migrate they always come north in the daytime and go south at night, and the peculiar thing is that they always go at one certain time. It is always on the night of September 13 or 14. As many times as I have driven along the road between four and five o'clock on these dates, I have seen many Red Heads on the fence posts and telephone poles. The next morning none would be in sight. I do not know why the birds leave the timber and go to the fences the evening before going south, but I know such is the case.

Food of Woodpeckers.

It is the food habits of the woodpeckers that makes them valuable to the farmers of Rush county. Most people that plant fruit trees in Rush county, buy the trees, plant them in a more or less careless manner, go about their business and in a few years go back to the trees to gather their fruit, having given them no attention in the meantime. Who has kept your trees free from insects? The birds. They have not done this for our benefit but for their own living. About 70 per cent of the food of woodpeckers consists of animal matter. This is made up of wood-eating worms, insects, spiders, caterpillars and other kinds of plant destroyers. The Downy begins at the

NEW OIL FIELD IS FOUND

Little Town of Thayer is Center of Amazing Activity.

(By United Press.)

Kentland, July 8.—Thayer, at little village in the northern part of Newton county, is the center of amazing activity these days, due to an oil boom that has struck that section, including many acres in southern Lake county.

Four thousand acres of land in these two counties have been leased to an oil and gas company and preparations are being rushed to drill wells. The field is within thirty miles of Whiting where the Standard Oil Company has its largest refineries. Natural gas has been used for years by residents for lighting and heating purposes.

Miss Luella Mauzy is suffering from ptomaine poisoning at the home of Mr. and Mrs. W. A. Mull, southwest of the city.

The annual reunion of the Kennedy family will be held Sunday at the home of William Whipple, northwest of Connersville. Several from this city will attend.

B. A. Black, local grocer, has filed an account suit against Herbert De Witt, demanding \$40.97. The suit was filed in the court of James Kratzer, justice of peace.

Persons passing the W. A. Alexander farm west of the city today commented on the fact that 5 double plows were working in one corn field and 2 binders cutting wheat in another.

Will Case, living on the Charles Alger farm north of the city, had a narrow escape from serious injury Thursday when the seat on a hay wagon broke and threw him under the heels of the horses. The horses were young and kicked violently, but due to Case's presence of mind, he escaped with only a few minor bruises.

INDIANA IN WAR TIME.

Warsaw—Mobilization of the national guard caused the cancellation of a street carnival to be given this week as a feature of the Kosinski county centennial celebration by Company H, the local company of the national guard.

Greensburg—Three words—"All is well" meant more to Mr. and Mrs. Edward Kessing of this city than any message they ever received. The three words made up a radiogram from their son, Ensign Oliver O. Kessing, who was in command of a party of sailors from the gunboat Annapolis who had a brush with Mexicans at Mazatlan harbor.

Hammoud—Ralph Ross Jr., son of Attorney Ross of this city, is expecting to hear the "call to the colors" at any time. Ralph who is but ten years old, wrote to Governor Ralston when the call went out for the mobilization of the national guard offering his services. The Governor replied saying, "I shall keep you in mind." According to Ross the reply amounts to a promise to use him should the occasion so demand.

Lebanon—Sister Susie will soon be sewing shirts in Lebanon. The Lebanon branch of "An American Woman's League" has increased its membership to fifty and in case of war will make bandages and otherwise look after the interests of the men at the front.

Winchester—If the Winchester company of the Indiana National guard is ordered to the border, a collection will be started for a mess pot. Pledges already have been secured and should the company be ordered to entertain it is estimated that a collection of more than \$500 will be made.

SURPRISE

The Ladies Aid society of the Second M. E. church gave a very pleasant surprise on Mrs. Waller Friday evening. About twenty guests were present and enjoyed the dainty luncheon that was served. Mrs. Waller received a number of presents, as she will soon leave for a short stay with relatives in Lexington, Ky.

Notice of Ditch Letting.

Notice is hereby given that the Trustees of Rushville Township, Rush County, Indiana, will at his office in Rushville, Indiana, on the 29th DAY OF JULY, 1916, at one o'clock p. m., receive bids for the improvement by cleaning and repairing the following ditches: Abram Hackleman, Henry C. Mull, Thomas Logan, William Burroughs, William Alexander, Arthur Gates. All of said ditches are in Rushville Township, Rush County, Indiana. Plans and specifications are on file in my office showing the number of cubic yards of excavation, where excavation is necessary, and the work to be performed in making such repairs, by sections of one hundred feet. The successful bidder shall, within three days, be required to enter into a contract and give bond with two good securities fit a sum not less than double the amount of the contract so awarded.

in North Sexton street. Sweet peas, nasturtiums and other summer flowers made the rooms where the young ladies were entertained, especially attractive. Delicious refreshments were served to the guests and a most delightful afternoon was enjoyed. A number of the guests represented the Sunday School class of which Miss Cohee is a member. Mrs. Robert Innis, teacher of the class was present, and others were the Misses Ruby Sterritt, Marie Taylor, Margaret Holebrook, Charlotte and Maud Smith, Martha Campbell, Nelle Clarkson, Grace Shaffer, Mrs. Harry Cohee, Mrs. Offutt, Miss Stella Offutt, and Miss Bird.

WILL BREAK CAMP

The six girls chaperoned by Mr. and Mrs. Will Sparks camping in the Green cottage on the Flatrock river will break camp Monday after a delightful week together. Tomorrow evening, the parents of the girls are going to give a pitch-in supper for them. Other guests at this time will be Harry Schmalzel, Paul Parrish, Alfred Norris, Lawrence Payne, Forrest Jones, Hubert Alexander, and Lucien Anderson. When the cottage is relinquished on Monday, Mr. and Mrs. Howard Carmichael and son, Clay, and Mrs. Gilbert and son, Alfred, are to camp there for the succeeding week.

AT DINNER

Mrs. Alice Leisure entertained at dinner Sunday when a number of her friends enjoyed a three course dinner. The hostess was assisted in entertaining by Mrs. Mary Moore. The guests were Mr. and Mrs. Rush Lee and daughter, Alta, Mr. and Mrs. Milagan and son, David, Miss Alice Stanley of Arlington, Mr. and Mrs. Noah Leisure and son, Howard, Mr. and Mrs. Robert Ball and daughter Ethel and Blanch of Morristown.

ENTERTAIN YOUNG MEN

The Young Ladies' class of the Fairview Christian church entertained the Young Men's class at the home of Miss Mary Hinchman near Palmyra last evening. It was in the form of a lawn party, the lawn being brilliantly lighted with Japanese lanterns and prettily decorated. Games were played on the lawn and tempting refreshments were served.

BIRTHDAY DINNER

Mr. and Mrs. Will Newbold entertained at dinner yesterday in honor of their son James' fifth birthday. Those present included Mrs. A. Kaufman of Illinois, Mr. and Mrs. George Gulde and Miss Kate Gulde of Shirley and Miss Maude Hunt of this city.

ATTEND REUNION

Mr. and Mrs. Bruce Beck will attend a family reunion and picnic to be given tomorrow in the grove near the home of Mr. and Mrs. James Warfel northeast of the city.

Mr. and Mrs. James Wells and son, Chester, entertained at dinner Sunday Mr. and Mrs. Otto McDaniel, Mrs. Ora McMichael and daughter, Bernice, Mr. Merrill, Otis Noble, and Roy Walton of Arlington.

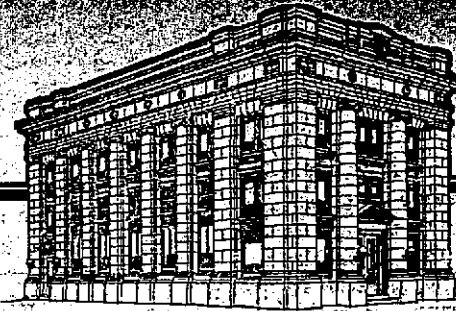

DRAW LINE ON COCKROACH

(By United Press.)

London, June 20.—(By Mail)—One hundred and thirty-eight women war workers who agreed to catch rats for a big London "Rat Catching and Vermin Destroying" establishment opened up a new discovery of feminine nature today.

They will gladly catch rats for \$10 a week but "cockroach decoying" is where they balk. It was where all but two of the rodent catchers balked today when the firm attempted to include destruction of the wily cockroach in the day's routine.

In addition to catching rats and mice, the firm also attempts to eliminate crawling members of the vermin family. When all the men vermin eradicators were forced to join the army, the firm advertised for women. There was a feminine rush for the job. The women were first taught the gentle art of snaring the rodents. Then came the course of cockroaches. "Nothing doing" was the general reply.
